

Sexual Life in Ancient Rome 1952

1952. Rome's sexual life ran a parallel course to its cultural development: at first fulfilled in simple, severe, and prosaic married life, then developing into more sophisticated forms of sensuality, and degenerating into sadism, but always instinctive and always unspiritual. Yet, like its mighty Empire, Rome's sexual life sometimes displayed a greatness which may be repellent but is always impressive. Illustrated with plates.
