

Maggies Marriage (The Cloverleaf Series Book 2)

Marriage is hard work, but no one ever told Maggie it would be this hard. How did life end up so completely turned upside down? When Maggie Tremblye took her vows more than six years ago, she didn't anticipate becoming just a wife, just a mother, and no longer Maggie. It's impossible to cling to the bit of self-identity you have left when you're someone's everything. Meeting and falling in love with Michael Trembley, a young and handsome attorney, was the easy part. Moving away from her family, raising their six-year-old daughter almost singlehandedly, and learning she is now pregnant again is an entirely different story. All she wants to do is retreat back home to Birch Valley and her loud and loving family, the OBriens. So when Maggie hits her breaking point, she takes their daughter and reluctantly leaves Michael to his endless hours at the office. To be on top, you have to make sacrifices. Michael Trembley wants to be the best—the best corporate defense attorney, the best son, dad, and husband—but he falls short in the last two on his list of priorities. Now his perfect world is anything but. The distance from his family is a major wakeup call, but what is he willing to sacrifice to make it right? The journey of life is full of twists and turns. Will Maggie and Michael survive this bump in the road, or will their perfect idea of a family fall completely apart?
