

## London (Fallen Book 7)

Fallen: When the rebellion in Heaven occurred, God banished those angels who stood against him. They've lived on Earth for centuries, doing all they could to survive without going insane. Some continue to protect mortals at all costs, while others just want to blend into the world around them. The Fallen struggle to find balance between the desire for what they lost and the love they stand to gain if they stay on Earth. London by Tiffany Aaron Book Seven in the Fallen series Having lost her once, Mikail doesn't plan on letting this particular angel get away again. Mikail is the most powerful angel in heaven. As an archangel, he has been in charge of the Enforcers who try to keep the fallen in line. But he has a secret that he's been keeping for hundreds of years. He once fell in love with a woman then lost her. He's never forgotten Bridget and what she meant to him. Bridget Langston is a painter and her otherworldly canvases of angels have placed her at the top of the art world. But she's worried she's going crazy because she has visions of a man she's sure she's never met. When these two meet, history will repeat itself and Mikail can complete the task God has given him. But he will also have a choice to make give up his position in heaven or lose Bridget once and for all. It's the easiest choice Mikail has ever made. Tiffany Aaron About the Author: I've been writing for most of my life, but was first published in 2004. I believe everyone deserves love in all its forms. I write about women and men who find strength in loving each other. I live in the Midwest with my two cats, and when I'm not writing (which isn't very often) I read and watch movies.
