

Der Universale Leibniz: Denker, Forscher, Erfinder (German Edition)

An interdisciplinary survey on the importance of Gottfried Wilhelm Leibniz, the famous polymath from Hanover, Germany, reveals that he was a major contributor to many scholarly fields. This volume introduces the reader to the wide variety of Leibniz interests and talents by presenting essays on his importance to the following disciplines: History, Theology, Philosophy, Legal Studies, Political Counseling, Insurance Practice, Mathematics, Engineering, and Linguistics. German text.
