

Out of this World

The minute Arnie Simpson lays eyes on Ava Ward, he decides the MD after her name stands for Major Deviant. Her slender figure, white hair and unearthly intelligence make him want to lock limbs with her. Badly. If only he could be sure she wouldn't eat him in the morning. A seriously sexy rocket scientist is just what Ava wants for a lover. Unfortunately, Arnie doesn't use his immense brilliance. He tinkers with airplanes by day and her body by night. She'd let him tie her up and play with her forever if she could figure out what's tying down his mind. When their supercharged lovemaking attracts supernatural attention and when uncanny revelations come to light, they begin to wonder if their magical passion is totally insane or if it's simply out of this world.
