

## Swiss Foreign Policy, 1945-2002

Swiss Foreign Policy, 1945-2002 presents for the first time a comprehensive collection of eight essays, addressing the post-war foreign policy of Switzerland. The essays deal with a diverse range of issues: general foreign policy and neutrality; defense and security policy; relations with the United Nations; the Swiss policy of good offices; relations with the International Committee of the Red Cross; Swiss human rights policy; arms control and non-proliferation and foreign economic policy. Through these essays, the dualistic nature of Swiss foreign policy, being at once both strongly internationalist and strongly unilateralist, is examined.
